## PROFESSIONAL SUMMARY

---

AI-first video editor and AI specialist producing short-form, direct-response style video end to end: hook and concept, generative video clips, AI voiceover, and a finished cut in CapCut with burned-in captions and motion text. Comfortable owning a brief from script to delivery, and equally at home building the AI-assisted systems behind content — prompt engineering, LLM features, and automation. Works in English and Filipino.

## SKILLS

---

**Video Editing & Post:** Short-Form Vertical Video (TikTok, Instagram Reels, YouTube Shorts) · Direct-Response & UGC-Style Ads · Hook-Led Structure & Retention Pacing · Burned-In Captions & Kinetic Typography · Text Overlays, Lower Thirds & Transitions · Sound Design, Music Ducking & Audio Cleanup · Colour Correction & Platform Specs · Ad Variants & A/B Hook Testing

**AI Video & Audio:** Generative Video (Gemini Flow, Kling, Vibes.AI) · Image-to-Video & Text-to-Video · AI Voiceover (ElevenLabs, Google AI Studio) · AI Scripting & Ideation (ChatGPT) · Auto-Captioning

**AI & Automation:** Prompt Engineering · Generative AI Tools (ChatGPT, Claude, Gemini, opencode) · AI Workflow Automation (n8n) · AI-Assisted Content Production · Human-in-the-Loop Review

**Software:** CapCut (primary editing tool) · Adobe Premiere Pro (working knowledge) · DaVinci Resolve (working knowledge) · Adobe Photoshop & Illustrator · Canva

**Professional:** English & Filipino (Tagalog) · Client Briefs & Revision Rounds · Fast Turnaround Under Deadlines · Brand Consistency · Organised Project & Asset Management

## VIDEO PROJECTS

---

### GroundingMat - AI-Generated Video Ad (2026)

- Produced a fully AI-generated, photorealistic direct-response ad for a grounding sheet (perimenopause sleep angle) with no filmed footage at any point.
- Structured it on a mechanism format — hook, explainer body, turn, offer reveal, and CTA — with burned-in captions timed to the voiceover, an offer card, and an end card.
- Generated the clips with generative video tools, produced the voiceover in ElevenLabs, and cut and finished the sequence in CapCut.

Tools: Gemini Flow, ElevenLabs, CapCut | <https://drive.google.com/drive/folders/1EHPVi1nQ33-chCH4RYw7Ta4z-l4yfpRf?usp=sharing>

### Informative Diabetes - Filipino Health Explainer (2026)

- Wrote and produced a 60-second Filipino-language vertical health explainer on high blood sugar, structured hook → mechanism → CTA for a lay audience.
- Built the full AI pipeline: script with ChatGPT, imagery in Gemini Flow, still images animated into video in Vibes.AI, and narration in Google AI Studio.
- Finished the cut in CapCut with burned-in captions and published it as a vertical short-form video.

Tools: ChatGPT, Gemini Flow, Vibes.AI, Google AI Studio, CapCut | <https://www.facebook.com/reel/1088015767308779>

## AI SYSTEMS & WEB BUILDS

---

### Jet - Architecture Portfolio (2026)

- Built and shipped a phone-first portfolio site for architect Julianne Brigitte G. Sunga-Reyes, replacing a 30-page Issuu flipbook that carried no contact details and could not be indexed, filtered, or read outside Issuu's reader.
- Built the public site end to end: a home page, a projects index with category filters, project detail pages, an about page, and a resume.

Stack: Next.js, React, TypeScript, Tailwind, Supabase, Vercel | <https://jet-portfolio-hazel.vercel.app>

### Luisa & Son - Cake Ordering System (2026)

- Built and shipped a complete cake-ordering system: storefront, custom-cake builder, cart, checkout, order tracking, and a no-code admin panel.
- Engineered a server-authoritative pricing engine shared by the on-screen estimate and server checkout, so client tampering cannot change the total and every placed order stores frozen price snapshots.

Stack: Next.js, React, TypeScript, Tailwind, Supabase, Vercel | <https://luisa-and-son.vercel.app>

### Leadline - AI-Assisted CRM (2026)

- Built and shipped a working CRM web app end to end: authentication, contacts, deal pipeline, and activity log.
- Added an AI quick-capture feature that turns a pasted message into a structured contact and deal, reviewed before saving.

Stack: Next.js, React, Supabase, Google Gemini | <https://leadline-topaz.vercel.app>

## WORK EXPERIENCE

---

### Graphic Artist - Luisa and Sons (Cake Shop) (Jun 2026 – Present)

- Design and produce custom cake toppers and cake graphics to client specifications.
- Manage multiple design jobs under strict production deadlines while maintaining print quality.
- Prepare production-ready artwork and coordinate with the team to keep daily output on schedule.

### Business & Client Relations Associate - Cebuana Lhuillier (Nov 2023 – Jun 2024)

- Managed high-volume client transactions while ensuring accuracy, compliance, and professional service delivery.
- Built strong customer relationships through proactive communication and effective service resolution.
- Addressed and resolved customer concerns quickly to maintain high satisfaction and protect brand reputation.

### Administrative Assistant - Church by the Highway (Sep 2022 – Oct 2023)

- Handled administrative and clerical tasks, including documentation, filing, and record-keeping.

### Layout Artist & Printer Specialist - Cong Clothing (Jul 2020 – Aug 2021)

- Designed and finalized production-ready sticker layouts ensuring accuracy and print quality.

### IT Support - Neo Concept Advertising and Events (May 2018 – Dec 2019)

- Provided technical support for staff and operations, including hardware and software troubleshooting.

## EDUCATION

---

**Philippine Women's University** - Bachelor of Science in Information Technology (2015)
